

EMERGENCY CALL SWITCH

Model CA17

The Bogen Model CA17 Call Switch is a momentary-push switch designed for use with PI/SI35A Intercom Systems in conjunction with the SCR25A. When pushed and released once, a signal is sent to the MCP35A via the SCR25A call-in module to annunciate the call-in on the SBA225. The room must be equipped with a 25-volt speaker.

The CA17 is designed for flush-mounting in a standard single-gang outlet box; connections are made as illustrated in the figure below.
