

Tile Bridge Support

Model TBSF

Description

This Bogen Tile Bridge Support (Model TBSF) is designed to offer additional mounting support for the Bogen High-Fidelity, Small-Footprint Speaker (Model HFSF1) and Compact Ceiling Speaker (Model SEC4T) when mounted in a suspended ceiling installation.

Installation

1. Remove the tile from the ceiling and put the TBSF on top of the ceiling tile, aligning the ends of the TBSF rails as shown in the drawing at right.
2. Typically the ceiling speaker will be mounted in the center of the ceiling tile. Care must be taken to ensure that the TBSF rails will be flush with the tile sides and that the ring portion will not interfere with the suspension grid.
3. Use the ring as a guide to cut a hole in the ceiling tile.
4. Sandwich the tile between the TBSF and the front bezel of the speaker and secure the speaker clamps. Complete speaker installation and connections as directed in the speaker instruction manual.
