Wall Baffle Wooden Speaker Assemblies

Models
WBS8T725 & variations, WBS810T725

Description
Bogen Wall Baffle Speakers consist of 8" cone speakers (S86 or S810) pre-assembled into a simulated walnut-finished wooden enclosure with a black grille cloth on front. These wall baffles are handsomely styled and ruggedly built with 3/8" particle board reinforced at the corners. Designed for wall mounting, the face is angled downward 13.5 degrees. Available options include recessed volume control and terminal strip.

Features
- 4-watt capacity
- 6 power taps available (4, 2, 1/2, 1/4, 1/8 watts)
- Works with both 70V and 25V amplifier outputs
- Simulated walnut finish
- Pre-assembled for faster installation
- 8" cone speaker for excellent audio quality
- 6 oz. or 10 oz. magnet weights
- Recessed volume control available (V models only)
- Screw terminals available (BR models only)
- Easy wall-mount installation
- Mounting hardware included

**WBS8T725** The surface-mounting loudspeaker assembly shall be a Bogen model WBS8T725 (or WBS8T725V, WBS8T725BR, or WBS8T725BRV), or equivalent, 8" cone-type loudspeaker having a frequency response of at least 50 Hz to 12 kHz. Axial sensitivity shall be 95 dB, measured at 1-watt/4 feet. The loudspeaker shall have a 6 oz. ceramic magnet and a 3/4" voice coil. A transformer, capable of matching an 8-ohm loudspeaker to a 25-volt or 70-volt line, and providing power taps of 4, 2, 1, 1/2, 1/4, and 1/8 watts shall be included. The transformer primary and secondary leads shall be stripped, tinned, and shall be at least 6" in length.

The loudspeaker shall be assembled in a wall baffle for surface mounting, angled 13.5 degrees for downward sound dispersion. The baffle shall be constructed of 3/8" particle board, glued and covered in simulated walnut vinyl. Glue blocks shall be used to reinforce all side corner joints. The speaker opening shall be covered with a black grille cloth. Overall dimensions shall be 9-1/2" W x 9-1/2" H x 5-1/4" D (top) x 3-1/4" D (bottom).

(For **WBS8T725V** add) The assembly shall include a control for adjusting the volume of the loudspeaker.

(For **WBS8T725BR** add) A terminal strip shall be included for connection of the audio line. Terminals shall be labeled for 4, 2, 1, 1/2, 1/4, and 1/8-watt power connection. A control shall also be included for adjusting the volume of the loudspeaker.

**WBS810T725** The surface mounting loudspeaker shall be a Bogen model WBS810T725, or equivalent, 8" cone-type loudspeaker having a frequency response of at least 70 Hz to 15 kHz. Axial sensitivity shall be 96 dB, measured at 1-watt/4-feet. The loudspeaker shall have a 10 oz. ceramic magnet and a 1" voice coil. A transformer, capable of matching an 8-ohm loudspeaker to a 25-volt or 70-volt line, and providing power taps of 4, 2, 1, 1/2, 1/4, and 1/8 watts shall be included. The transformer primary and secondary leads shall be stripped, tinned, and shall be at least 6" in length.

The loudspeaker shall be assembled in a wall baffle for surface mounting, angled 13.5 degrees for downward sound dispersion. The baffle shall be constructed of 3/8" particle board, glued and covered in simulated walnut vinyl. Glue blocks shall be used to reinforce all side corner joints. The speaker opening shall be covered with a black grille cloth. Overall dimensions shall be 9-1/2" W x 9-1/2" H x 5-1/4" D (top) x 3-1/4" D (bottom).
