

BOGEN

C4000 SERIES

RELEASE 6.0 NOW AVAILABLE

Bogen C4000 Series

IP-Based Communications System for safer, better managed schools

The **C4000 Series** is a software-based state-of-the-art IP-based paging and intercom solution that leverages the latest digital, mobile and software technologies to address today's educational environments, security challenges and mobile lifestyles.

The **Nyquist C4000 ver. 6.0 Software Release** represents a significant enrichment of Bogen's award-winning solution and adds **over 40 new features** and enhancements to an already robust platform with improved capabilities in communication, safety, and security.

This new software release emphasizes ease of use through enhanced automation, and extended reach via expanded visual messaging capabilities. Easy system configuration, coupled with an intuitive UI, allows customers to quickly deploy features that are important to their schools' needs.

RELEASE 6.0 HIGHLIGHTS

- Simplified Configuration graphical zone setup, and Device Discovery
- Debian 11 System OS Upgrade; Automated User Logout for enhanced security
- Support for the new Combo Clock/Messaging Wall Baffle Speaker (NQ-S1810WBC)
