

# BOGEN®

A Bogen **Software Update Subscription (SUS)** is a service that provides regular updates and enhancements to Bogen Communications' Nyquist solutions' software. This subscription ensures that the software remains up-to-date with the latest security patches, features, and improvements.

01

## Enhanced Security

Regular updates protect against the latest security threats.

02

## Functionality

Access to new features and improvements that enhance system capabilities.

03

## Reliability and Stability

Regular updates fix bugs and improve system stability, reducing downtime.

04

### **Cost Efficiency**

Maintaining a current subscription is more cost-effective by avoiding lapsed coverage catch-up fees down the road.

05

### **Compliance**

Ensures the system stays compliant with evolving industry standards and regulations.

06

### **Flexibility**

Offers 1-, 3-, 5-, and 15-year year subscription options and flexibility to meet specific user needs.

07

### **Always Current**

Enables new system capabilities and support for new hardware for improved communications, routine improvements, and access to integrated third-party technology partners.

08

### **Future-Proofing**

Ensures compatibility with new devices and technologies, protecting long-term investment.
